**Breathing equipment:**

Suitable respiratory protective device recommended.

**Protection of hands:** Protective gloves

**Material of gloves**
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

**Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Eye protection:**

Manufacturing sites:
Wear safety glasses with side shields (or goggles).

Distribution, Workplace, and Household Settings:
No special protective equipment required
