

"As the laboratory industry continues to change,
GC America keeps up with innovative new materials, especially with
the GC Initial ceramic line. GC Initial is easier to use and ensures
our restorations have the highest aesthetics in the industry. I highly
recommend that all of my colleagues use GC Initial."

- Luke S. Kahng, CDT

TOUCH of GENIUS

A true integrated system, the GC Initial Family is perfect for everyone from boutique labs to production labs. GC Initial offers you the highest in quality and aesthetics, no matter the substructure.

- Simplifies the build-up procedure
- Easy to handle and extremely stable
- Contributes to durable, life-like aesthetic restorations
- Six ceramics in one system; works for all substructures
