**FOR IMMEDIATE RELEASE:**

Alsip, IL – April 2018 – GC America Inc. introduces GC Initial™ Spectrum Stains.

Discover GC America's new universal stain and glaze system for staining and characterizing ceramic materials. GC Initial Spectrum Stains are powder stains available in a variety of 16 colors. The GC Initial Spectrum Stains are the latest extension to the GC Initial product portfolio. GC Initial Spectrum Stains are a universal stain and glaze system for the individualized staining and characterization of ceramic materials.

- Stains and glaze for external staining of ceramic materials and internal characterization of layering ceramics
- GC Initial Spectrum Stains are perfectly compatible with almost all types of dental ceramics
- Due to its wide CTE range, only one set for all GC Initial systems is needed
- Adaptable consistency of stains and glaze can be adapted to the preferred consistency of the user

Product is available for ordering and will ship after May 14, 2018.
