FOR IMMEDIATE RELEASE

GC America introduces:

TEMPSMART® (48 mL) Mixing Tip II SSS (20)

Alsip, IL – May 2016 – GC America Inc. is excited to announce the launch of **TEMPSMART® (48 mL) Mixing Tip II SSS (20)**.

TEMPSMART® (48 mL) Mixing Tip II SSS (20) is a refill bag of 20 mixing tips intended for use with TEMPSMART® (48 mL) cartridges.

TEMPSMART® is an innovative, dual-cured, bis-acrylic composite temporary crown and bridge material using microfilled resin (MFR) and nano-filler technologies. TEMPSMART® maintains a smooth surface after polishing because of this revolutionary combination. The high density polymer network for TEMPSMART® makes it a strong material ideal for any sized provisional.

TEMPSMART® is ideal for temporary crowns, bridges, inlays, onlays and veneers, as well as long-term temporary restorations. Key features and benefits of TEMPSMART® include:

- First in class fracture toughness for clinical longevity
- Beautiful esthetics as well as high gloss retention
- High flexural strength facilitates multi-unit temporization
- Quick working and setting times for the shortest chairside time
- Low plasticizer/thin oxygen inhibition layer allow for better polymerization

TEMPSMART® is available in two delivery systems:

- 48 mL cartridges (1:1 ratio) available in shades A1, A2, A3, A3.5, B1 and BW
- 10 mL syringes available in shades A1, A2, A3, and B1
