FOR IMMEDIATE RELEASE:

MI Paste Plus™ with RECALDENT™ (CPP-ACP) Technology 10 Tube Pack – MINT – Now available in Canada!

Same great benefits as MI Paste, but enhanced with Fluoride!

Alsip, IL – May 2014 - GC America Inc. is proud to announce that MI Paste Plus™ with fluoride will be available in Canada this August. MI Paste Plus is a topical tooth crème that contains bio-available calcium, phosphate *and* 900 ppm fluoride. Each box contains ten (40 g) tubes Mint flavor only.

- **MI Paste Plus - 10 Tube Pack Mint (SKU 008295)**
 - **MINT only**

MI Paste Plus offers a simple and natural way to treat your patients, quickly, safely and effectively. The mild Mint flavor is a popular flavor for adult patients and children 12 and over.

Choose MI Paste Plus for:

1. Before, during and after orthodontic treatment
2. High caries risk patients
3. To provide a topical coating for patients suffering from erosion, xerostomia or Sjogrens syndrome
4. For special needs adult patients.

MI Paste and MI Paste Plus are one-of-a-kind products that restore minerals and help produce saliva. They are the only dental products containing RECALDENT™ (CPP-ACP), a special milk-derived protein that helps protect your teeth. Both have less than 0.1% lactose and are safe for lactose intolerant patients.

For more information on GC America and its complete product line, including new MI Paste Plus literature, please visit our corporate website at www.gcamerica.com.
