FOR IMMEDIATE RELEASE

Introducing

GC Fuji® Automix LC: Resin-reinforced Light-cured Glass Ionomer Restorative with Ergonomic Dispenser

Alsip, IL – April, 2019 – GC America Inc. is excited to announce the launch of our next generation bioactive restorative, **GC Fuji® Automix LC** restorative, in Canada on April 1st, 2019. GC Fuji glass ionomers are well-known in Dentistry for their quality and reliability for over 40 years.

GC Fuji Automix LC is a radiopaque resin-reinforced glass ionomer with high fluoride release in an easy delivery system.

GC Fuji Automix LC is ideal for restoration of primary teeth, permanent class III and V restorations, core build up, and as a base or liner under composite restorations.

Features and benefits:

- Easy dispensing into cavity with ergonomic dispenser
- Bioactive material with high fluoride release
- Rechargeable fluoride release
- No need for etchant and adhesive resulting in a fewer steps
- High bond strength even in the presence of saliva
- Excellent esthetics and polishability
- Virtually no post-operative sensitivity
