

Drug Facts

Active ingredient	Purpose
Sodium fluoride 0.24% w/w	Anti-cavity
Potassium nitrate 5% (w/w)*	Anti-sensitivity

*Maximum FDA sensitivity active ingredient.

Use

- aids in the prevention of dental cavities
- builds increasing protection against painful sensitivity of the teeth to cold, heat, acids, sweets or contact

Warning If the sensitivity persists after 4 weeks of use, consult a dentist or physician. Keep out of reach of children. If more than the recommended amount of paste used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away. Do not use on patients with a milk protein or hydroxybenzoates allergy. In case of allergic reaction, stop use, rinse mouth with water and seek medical advice.

Directions

For adults and children 12 years of age or older, apply a small, pea-size amount of MI Paste ONE to your toothbrush. For best results, brush for 2 minutes, expectorate and do not rinse; do not eat or drink for 30 minutes after brushing. Use twice daily. Replace cap after use. For children under 12 years of age, consult a dentist or physician.

Inactive ingredient Pure water, Glycerol, RECALDENT™ (CPP-ACP) Casein Phosphopeptide-Amorphous Calcium Phosphate, Sorbitol, CMC-Na, Propylene glycol, Silicon dioxide, Titanium dioxide, Xylitol, Phosphoric acid, flavoring, Methyl salicylate, Sodium saccharin, Ethyl p-hydroxybenzoate, Propyl p-hydroxybenzoate, Butyl p-hydroxybenzoate, Sodium-N-lauroyl sarcosinate
